Education

K.R Mangalam University   **Aug. 2023 – May 2025**
Master of computer applications   *Sohna, Haryana*

JIMS University   **Aug. 2019 – May 2022**
Bachelor of computer applications   *Rohini Delhi*

Experience

PHP/Laravel Developer   **Dec 2022 – July 2023**
Digilink Ads   *District Center Jaina Tower 2,Delhi*

- Developed and maintained web applications using PHP and Laravel framework, ensuring high performance and scalability.
- Worked extensively with MySQL, optimizing queries and database structures for efficient data retrieval.
- Implemented caching mechanisms using Redis to enhance application speed and efficiency.
- Integrated third-party APIs and built RESTful services to streamline communication between various modules.
- Customized and developed WordPress plugins and themes for various client requirements.
- Worked with ClickHouse to handle large-scale data analytics and reporting.

Projects

Alumni Management System | *Next js,Node js, My Sql*   **Apr 2025**

- Developed an Alumni Management System to streamline alumni registration, event coordination, faculty assignment, and certificate distribution.
- Implemented user roles with distinct interfaces for Alumni, Admin, and Faculty, enabling secure access and smooth workflow across the platform.
- Utilized technologies like Next.js and TypeScript for frontend, Express.js and Prisma for backend, and MySQL for efficient data management.
- Integrated Cloudinary for secure image storage, and implemented robust authentication and validation to ensure data integrity and system security.

ShivaMediLife | *Next Js,Tailwind CSS*   **Dec 2024**

- Developed ShivaMediLife, a Next JS based website dedicated to promoting yoga and meditation for self-care and mindfulness.
- Designed and implemented three interactive pages to provide detailed information on yoga practices and their benefits.
- Created an intuitive and engaging user interface to enhance the learning experience and encourage daily mindfulness practices.
- Ensured seamless navigation and responsiveness for an optimal user experience across different devices.

SummarEase | *php, Laravel, Html, Css, Js, SQL*   **December 2023**

- Developed a web-based application that offers a summarizer, translator and blog pages using HTML, CSS, JavaScript and Laravel framework.
- Built a user-friendly text summarizer that generates concise summaries from long articles or documents with high accuracy.
- Integrated a translator feature that supports multiple languages, allowing users to translate content seamlessly within the platform.
- Designed the frontend with a responsive layout using HTML and CSS, ensuring an intuitive user experience across various devices.
